- Appendix D: Record of Public Meeting with the Augusta County Recycling Committee
- Appendix E: Record of Public Hearings
- Appendix F: Resolutions for Adoption of the Solid Waste Management Plan
- Appendix G: Solid Waste Disposal Sites

# CHAPTER 1

## INTRODUCTION

---

### SUMMARY

Solid Waste Planning Regulations, 9 VAC 20-130-10 et seq., effective August 1, 2001, require each region in Virginia as well as each city, county and town not part of such a region to develop comprehensive and integrated solid waste management plans that, at a minimum, consider and address all components of the following hierarchy:

1. Source Reduction
2. Reuse
3. Recycling
4. Resource Recovery
5. Incineration
6. Landfilling

The purpose of the solid waste management plan is to establish minimum solid waste management standards and planning requirements for protection of the public health, public safety, the environment, and natural resources locally and regionally throughout the Commonwealth of Virginia.

These regulations require that each planning region maintain a current update of their plan. This update is required every 5 years. This report serves as the update of the Greater Augusta Solid Waste Management Plan completed in January, 2012.

### PLAN GOALS

The plan should meet the following goals:

1. Identify the solid waste management needs and objectives of the region for the next 20 years while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.
2. Produce an implementation and funding strategy to meet the needs and objectives identified in the plan.
3. Continue to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.
4. Ensure that the region maintains or exceeds the minimum 25% recycling rate.
5. Provide a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.
6. Consider public and private sector partnerships in the improvement of solid

waste management.

7. Ensure the documentation of all known closed, inactive, and active solid waste disposal sites.
8. Ensure continued monitoring and recording of the amount and type of solid waste produced annually within the region.

## CHAPTER 2 AREA DATA, WASTE QUANTITIES, & PROJECTIONS

---

### DESCRIPTION OF PLAN AREA

#### Geography

The Augusta County-Staunton-Waynesboro area lies primarily within the Valley and Ridge Physiographic Province which is characterized by gently rolling and hilly valleys, as well as gradual mountain slopes. The extreme eastern edge of the County is within the Blue Ridge Physiographic Province, which is distinguished by sharp mountain peaks. Elevations range from 1,050 to 1,800 feet above sea level in the Shenandoah Valley. The Blue Ridge Mountains and the Allegheny Mountains have many peaks which exceed 3,500 feet above sea level. The level areas of the County are located in the vicinity of Fishersville, Middlebrook, Spottswood, Stuarts Draft, Swoope, Waynesboro, and Weyers Cave (**Map 1**).

Soils in the Shenandoah Valley range from carbonate and shale soils to alluvial soils along rivers and streams. Colluvial soils derived from the weathering of sandstone and shale are found in the foothills paralleling the valley. The Blue Ridge and Allegheny Mountains are covered with shallow, rocky, excessively drained soils. The predominant geological structure underlying the Augusta County-Staunton-Waynesboro area is a complex formation of limestone and calcareous shale, with small amounts of sandstone and chert (**Map 2**).

#### Economy

The work force in the Augusta County-Staunton-Waynesboro area is composed of many different sectors. The economy was initially built around the productivity of the land. While agriculture remains an important component of the local economy, more and more people are employed in non-agricultural enterprises. In addition to the major manufacturing and industrial firms, the area has many smaller firms (fewer than 15 employees).

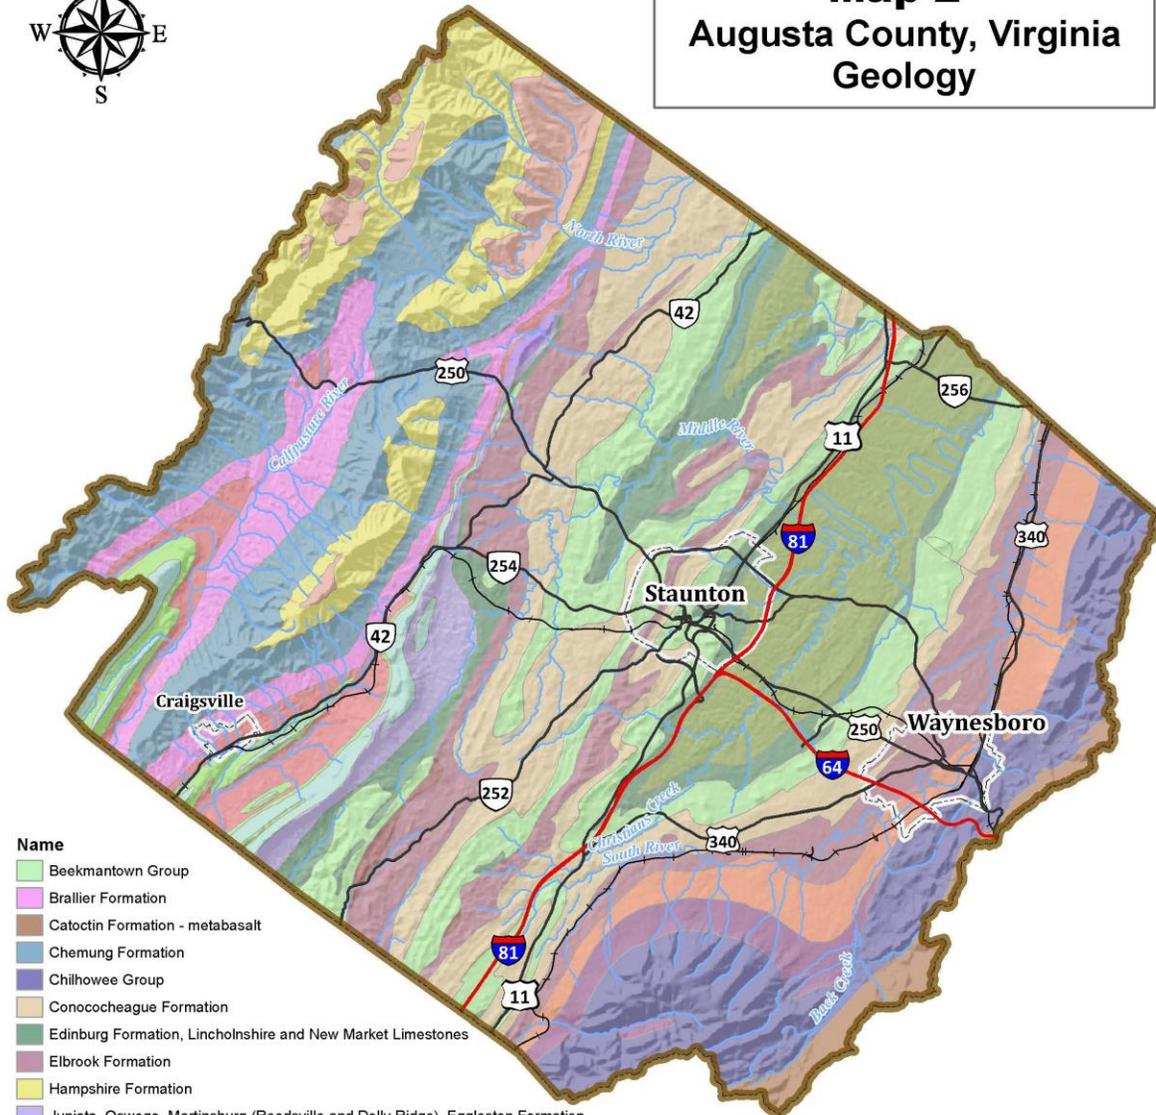

**Chart 1** shows average employment for all sectors between 2005 and 2015. Over all, average employment rose between 2005 and 2008. It fell from 2008 to 2010, but has gradually increased since that time to 2015.

**Chart 2** shows the real average weekly wage from 2005 to 2015. Average wages rose from \$573 to \$681 over that period. With the exception of 2006 and 2011, wages have risen at a minimum of 1% with a maximum occurring in 2007 at 3.31%.

While private wage and salary workers are predominant in the labor market, a large proportion of workers living in Augusta County, Staunton, and Waynesboro are employed by the governmental sectors. In 2015, the Virginia Employment Commission reported that 8,609 persons were employed by the government; Total government comprised 18 percent of all the employment in 2015.

Tourism is an important component of the Augusta County-Staunton-Waynesboro area economy. Visitors come to enjoy the area's scenic beauty and its many cultural attractions. As a tourist destination, the area offers good facilities including an excellent highway, air, and rail system, meeting and convention rooms, and a growing retail and commercial sector. Lodging is ample, ranging from most of the major hotel and motel chains to unique bed and breakfast establishments. In 2015, total travel expenditures in the area exceeded \$204 million.

Taxable sales in the region rose between 2005 and 2007 to \$1.21 billion before declining to \$1.11 billion in 2010. Since then taxable sales have risen to \$1.3 billion in 2015 (**Chart 3**).

## **Transportation**

The Augusta County-Staunton-Waynesboro area is at the heart of a strong transportation network and has immediate access to air, rail, and highway transportation. Located in the west-central portion of Virginia in the Shenandoah Valley, the 986-square mile area is within a day's drive of half of the population of the United States. Augusta County is located approximately 85 miles north of Roanoke, Virginia, 100 miles west of Richmond, Virginia, and 150 miles southwest of Washington, D.C. Distances to multi-state markets for area industries include Baltimore, Maryland, 190 miles; Greensboro, North Carolina, 190 miles; New York, 375 miles; Cincinnati, Ohio, 460 miles; and Atlanta, Georgia, 550 miles. Transportation and distances are shown on **Map 3**.

Interstates 81 (north-south) and 64 (east-west) intersect in Augusta County, just east of Staunton and 10 miles west of Waynesboro. Interstate 81 runs from Canada to Tennessee, while Interstate 64 runs from St. Louis, Missouri, to the Eastern Shore of Virginia. U.S. Route 11 (north-south) and U.S. Route 250 (east-west) intersect in Staunton. U.S. Route 340 originates near Greenville in the southern portion of Augusta County and proceeds north through Waynesboro and Grottoes to its terminus in Maryland. Virginia Primary Highways 42, 252, 254, 256, 275, and 276 serve to interconnect the rural areas of the County with the major highways.

The Augusta County-Staunton-Waynesboro area is served by a large number of motor freight carriers with distribution facilities in the area, as well as in Roanoke and Richmond. Most of these firms are authorized for intrastate shipping to and from locations within Augusta County, while others provide only interstate services.

The area is also served by three rail lines. The Norfolk and Southern Railway travels north to south and serves Waynesboro. The Shenandoah Valley Railway runs a local freight line that originates in Staunton and connects with Chesapeake Western Railway in Rockingham County. CSX Transportation, Inc., travels generally east to west serving the area. These companies provide daily local freight service to the area. N & S and CSX operate trailer-on-flatcar loading facilities located in Roanoke and Lynchburg, respectively.

The Port of Hampton Roads is located less than 200 miles east of Waynesboro, easily accessible by Interstate 64. The ice-free port is capable of handling large volumes of nearly every category of cargo: breakbulk, containerized, heavy lift, LASH, liquid and dry bulk, and roll-on/roll-off. The Port of Hampton Roads is traditionally the largest export port in the nation. More than 75 steamship lines link Hampton Roads with nearly 100 foreign countries through 251 ports. The port authority has an inland container terminal, the Virginia Inland Port (VIP), in Front Royal, Virginia, approximately 75 miles north of Staunton. Containers hauled by truck to the VIP are then taken by train directly to the Port of Hampton Roads for shipment overseas. The VIP offers convenient access to truck traffic on Interstates 66 and 81 and serves as a collection point for containers from Northern Virginia and surrounding states.

## **POPULATION DATA AND PROJECTIONS**

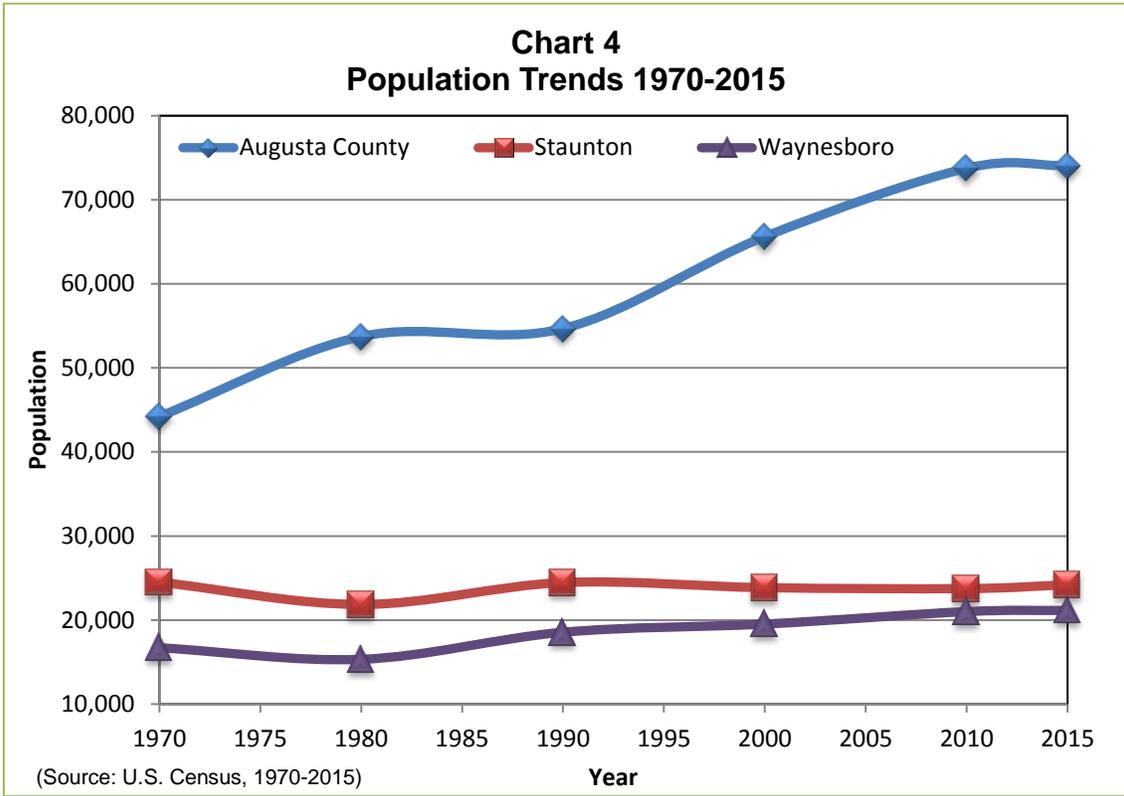

### **Population Trends**

Area population has continued to grow over the last 45 years. The 11.6 percent growth rate for the decade 1990-2000 is the largest increase in the past 45 years. Between 2000 and 2010, at a time when the State population grew by 13.0 percent, Augusta County and the cities of Staunton and Waynesboro experienced a combined increase of 9,514 persons for a net gain of 8.7 percent (**Table 1**).

	<b>AUGUSTA COUNTY</b>	<b>STAUNTON</b>	<b>WAYNESBORO</b>	<b>TOTAL AREA</b>	<b>VIRGINIA</b>
<b>1970</b>	44,220	24,504	16,707	85,431	4,651,448
<i>% Change 1970-1980</i>	21.5%	-10.8%	-8.2%	6.4%	14.9%
<b>1980</b>	53,732	21,857	15,329	90,918	5,346,797
<i>% Change 1980-1990</i>	1.8%	11.9%	21.0%	7.4%	15.8%
<b>1990</b>	54,677	24,461	18,549	97,687	6,189,317
<i>% Change 1990-2000</i>	20.0%	-2.5%	5.2%	11.6%	14.4%
<b>2000</b>	65,615	23,853	19,520	108,988	7,079,030

<b>2015</b>	74,053	24,193	21,150	119,396	8,367,587

*Table 1: Population Trends (source: U.S. Census, 1970-2015)*

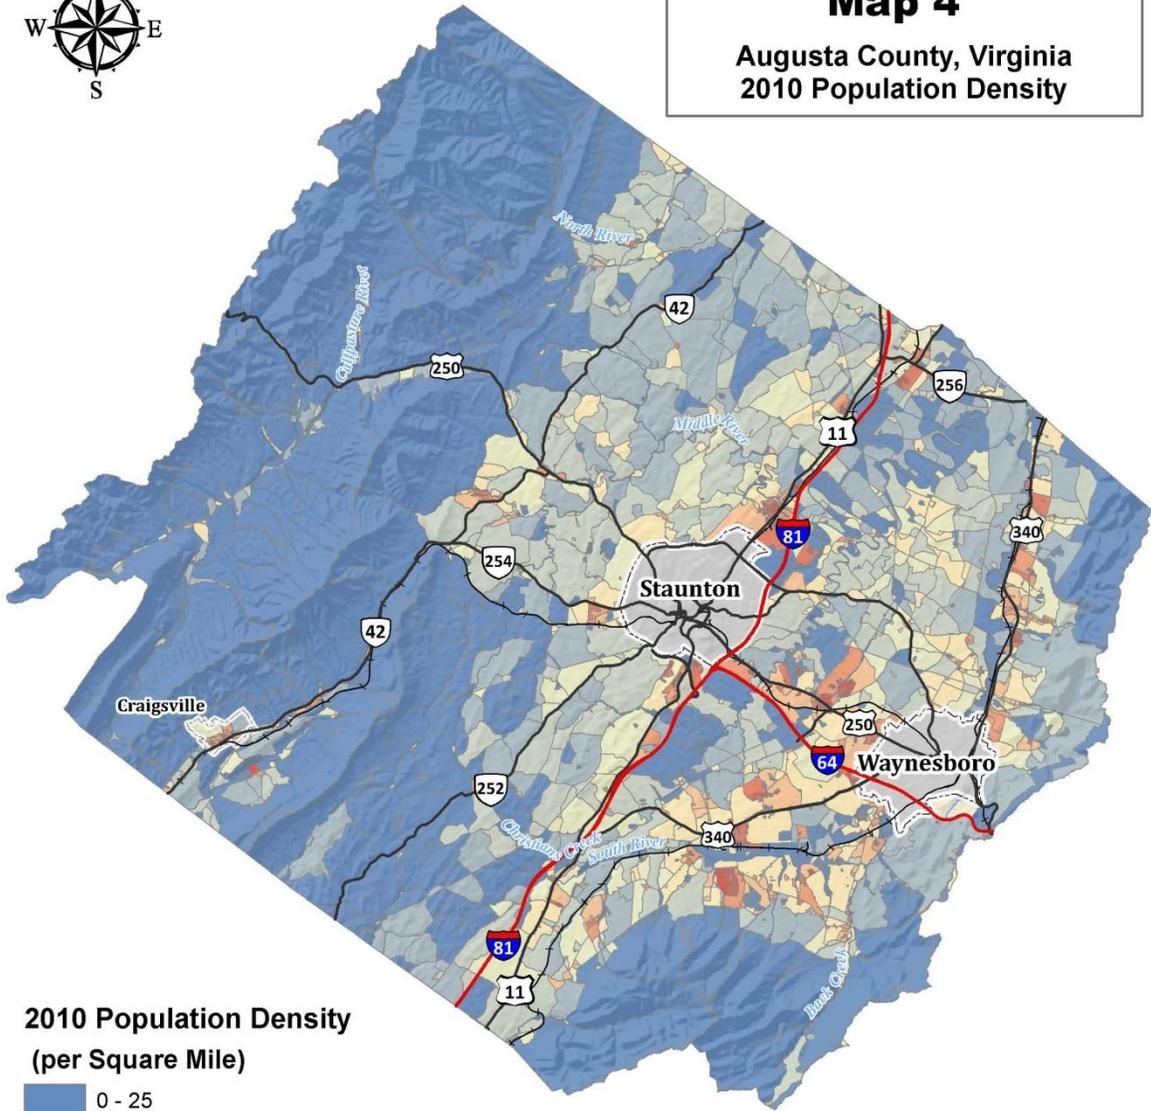

Most of the area's population growth has occurred in Augusta County, which had a 20 percent increase from 1990 to 2000 and a 12 percent increase from 2000 to 2010. Between 1980 and 1990, Augusta County had only a 1.8 percent increase; however, this low growth rate for that period is misleading because of annexations of County land by both Staunton and Waynesboro. Without the 6,154 former County residents brought into city limits through annexation, the County population would have increased by 13.2 percent, while the two cities would have experienced slight declines in population. Between 2000 and 2010, Augusta County continued to grow faster than either Waynesboro or Staunton. From 2010-2015 all localities experienced a small increase in population. **Chart 4** displays population trends from 1970 to 2015.

**Map 4, Map 5, and Map 6**, depict the 2010 population densities for Augusta County, the City of Staunton, and the City of Waynesboro, respectively.

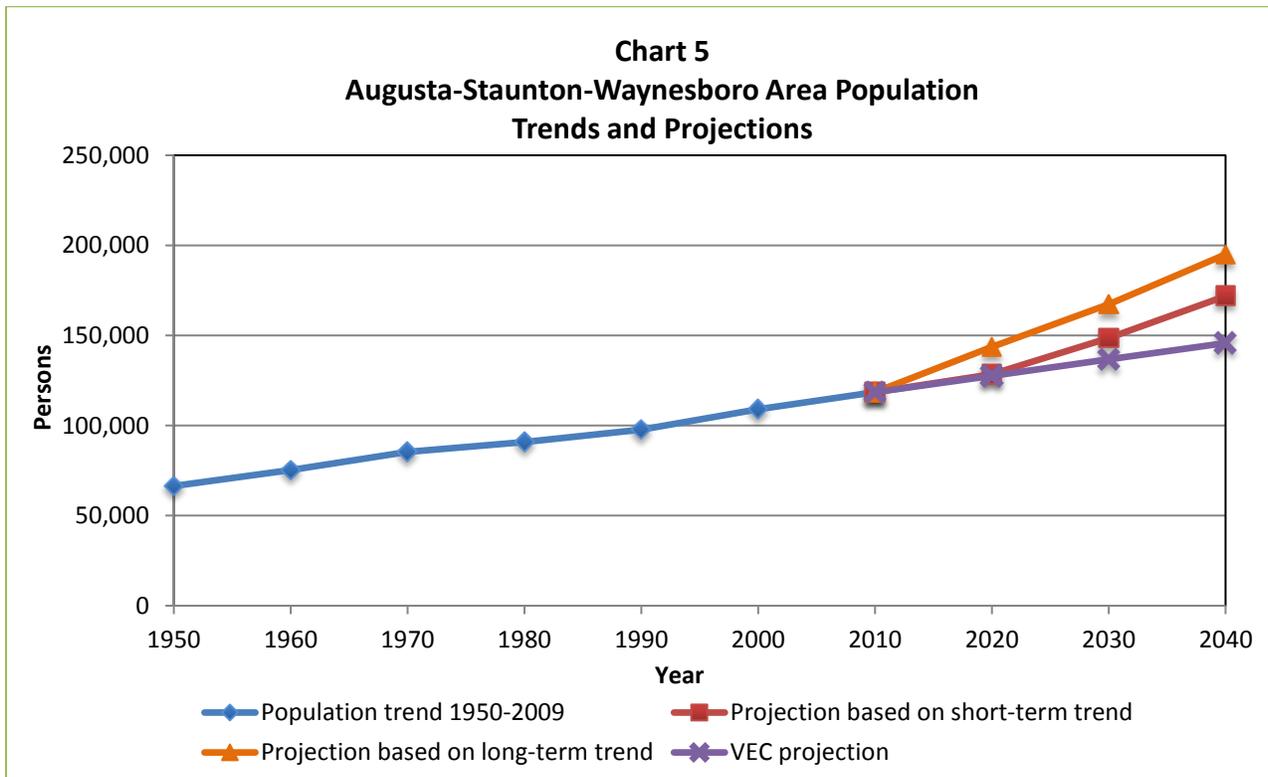

# Map 6 Waynesboro, Virginia 2010 Population Density

## Population Projections

**Chart 5** shows the Augusta-Staunton-Waynesboro region's population trend from 1950 to 2010, along with three alternative projections:

1. Projection based on short-term trend: This analysis is based on the short-term trends between 2000 and 2015. With an average annual growth rate of 1.47 percent, this projection results in a Augusta-Staunton-Waynesboro Area population of about 128,375 in 2020, 148,535 in 2030, and 171,860 in 2040.
2. Virginia Employment Commission Projections: This analysis is based on the Virginia Employment Commission's forecasts for 2020, 2030, and 2040. They were produced in 2012 and the latest available from the agency. This projection results in an Augusta-Staunton-Waynesboro Area population of about 127,635 in 2020, 136,730 in 2030, and 145,765 in 2040.
3. Projection based on long-term trend: This analysis is based on the long-term trend from 1950 to 2015. With an average annual growth rate of 1.54 percent, this projection results in a Augusta-Staunton-Waynesboro Area population of about 143,580 in 2020, 167,315 in 2030, and 194,975 in 2040.

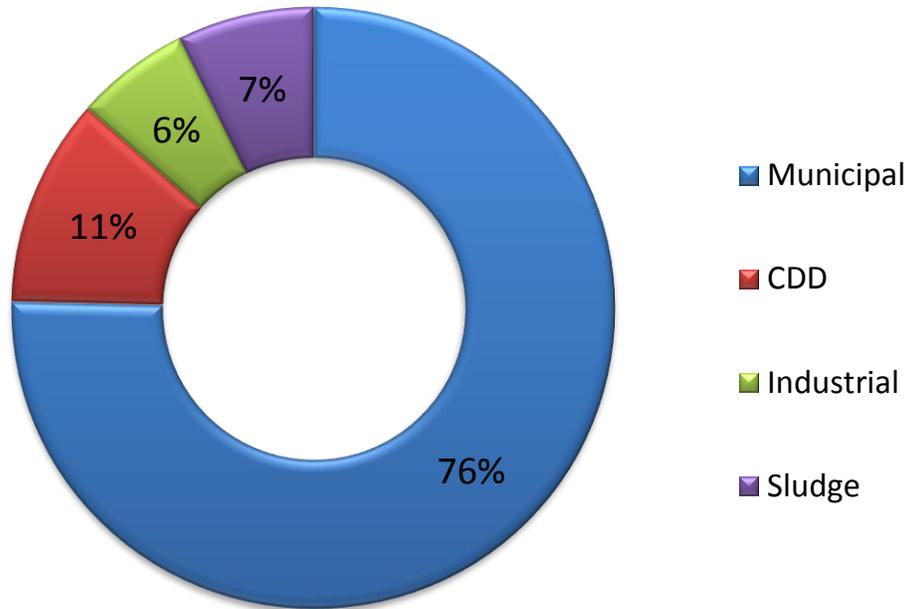

## COMPOSITION OF SOLID WASTE

The following charts display waste composition in the Greater Augusta region in 2016 based primarily on data in **Appendix A**, DEQ Form 50-25, Solid Waste Information and Assessment Program Reporting; and **Appendix B**, DEQ Form 50-30, Locality Recycling Rate Report:

- **Chart 6: Landfilled Material Composition** is as follows:
  - Municipal Waste – 76%; 96,146 tons
  - Construction and demolition debris – 11%; 14,248 tons
  - Sludge – 7% ; 9,315 tons
  - Industrial waste – 6%; 7,859 tons
  
- **Chart 7: Landfill Tonnage by Locality** is as follows:
  - Augusta County – 58%; 74,347 tons
  - Staunton – 18%; 22,960 tons
  - Waynesboro – 23%; 28,864 tons
  - Highland County – 1%; 1,398 tons
  
- **Chart 8: Recycled Material Composition:**
  - Paper – 17%
  - Metal – 48%
  - Tires– 3%
  - Waste Wood/Yard Waste– 27%
  - Other – 5% (plastic, glass, commingled, used oil and filters, electronics, used antifreeze, batteries, food waste)
  
- **Chart 9, Total Waste Stream Composition:** Household accounts for 44%, commercial 23%, and recycled 33%.

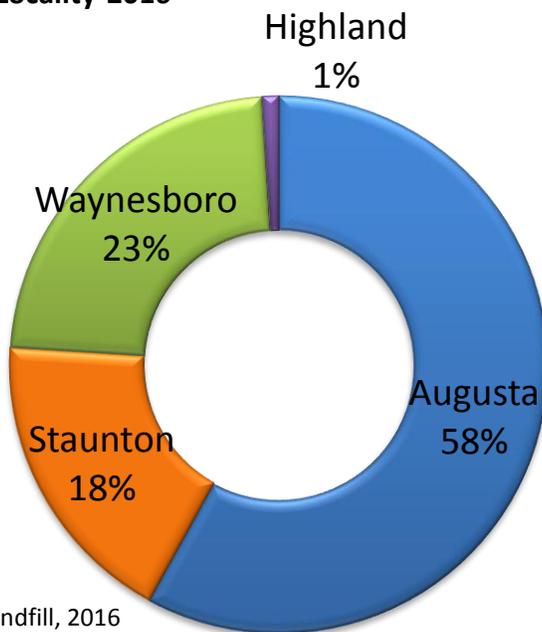

**Chart 6**  
**Augusta Regional Landfill**  
**Landfilled Material Composition - 2016**

Total: 127,570 tons

**Augusta-Staunton-Waynesboro Area**  
**Total Waste Stream Composition - 2016**

Source: Form 50-30, 2016

## **SOLID WASTE GENERATION PROJECTIONS AND FLOW PATTERNS**

Currently, almost all municipal solid waste enters the Augusta Regional Landfill. Some industrial waste and all hazardous industrial waste leaves the region, most notably from Invista, Hollister, and a few other major industries.

Waste stream projections in this plan are based directly on the population projections presented in **Chart 5**, using 2010 totals for the base year projection point. The base year data for 2010 gives the best available measured landfilled and recycled material tonnages.

The projections assume that waste generation changes proportionally with population. Hence, the projections assume a constant per capita waste generation and recycling rate. In reality, both of these rates will change from year to year. Recycling rates may fluctuate to a greater degree than the waste generation rate. Varying economic activity and recycling markets will affect both rates.

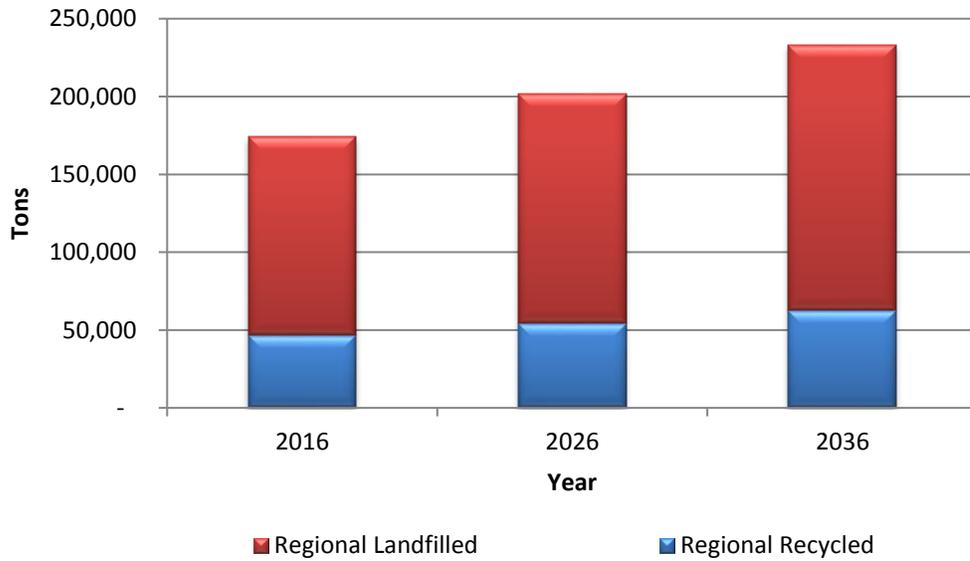

### **Projections and Assumptions**

Population increases will contribute to higher annual landfill tonnages. A 1.47% annual rate of growth for the Augusta-Staunton-Waynesboro Region was factored into the waste and recycling projections, using 2016 data as the base tonnages. This population growth rate represents the short-term growth rate that was calculated based on population trends over the past 15 years. See **Chart 5** for the population projection.

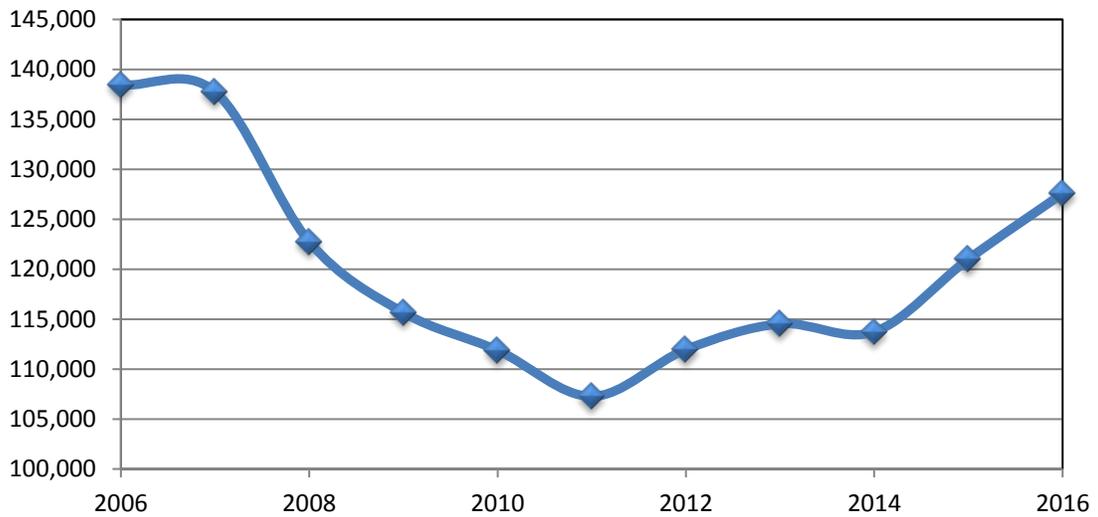

Based on these assumptions **Chart 10** displays the total waste stream projections (landfilled and recycled tonnages) from 2016 to 2036. The average annual rate of increase for total waste stream is projected to be 1.61% which would result in an increase from 174,237 tons in 2016 to 233,289 tons in 2036. If we break down the total waste stream into the two components of landfilled and recycled the tonnage would increase from 127,570 (2016) to 170,805 (2036) and 46,667 (2016) to 62,483 (2036) respectively.

It is important to review historical tonnage data as it displays past trends. Trends between 2006 and 2016, as reported to DEQ on annual Form 50-25, are depicted in **Chart 11**.

## WASTE DISPOSAL CAPACITY PROJECTIONS

Available remaining capacity for the Augusta Regional Landfill Phases 1-3 was determined by SCS Engineering. The volume remaining in Phases 1-3, including the side slope modification, was 377,847 cubic yards. As of January 2017, Phases 1-3 have approximately 257,800 cubic yards of remaining capacity. The remaining life of Phases 1–3 is 1 year, ending in 2018. Phase 4 was constructed in 2009 with an available capacity of 1,380,449 cubic yards while the projected creation of phases 5-7 is 2023, 2028, and 2036 respectively. Phases 5-7 are projected to have available capacities of 1,287,265, 1,854,586, and 4,298,616 cubic yards respectively. Over the planning horizon to 2050, the available capacity of the landfill is projected to be 9,078,763 cubic yards.

**Chart 12** displays the projected landfill capacity between 2016 and 2040. The projection assumes an annual waste increase of 1.47% based on the short-term population growth for the region and 1,500 lbs./cubic yd. of waste as routinely met by Augusta Regional Landfill. Thus, the projected landfill capacity remaining in 2040 will be 4,037,753 cubic yards, if no other plans have been made that affect waste streams or disposal. The arrows in **Chart 12** denote the implementation of the labeled phases.

## CHAPTER 3

### AREA SOLID WASTE MANAGEMENT SYSTEM

---

#### COLLECTION

##### Augusta County

Augusta County has ten convenience centers located throughout the 970 square mile County area (**see Map 7**). Most convenience centers have a 40 cubic yard box and a compactor with a hopper except in Deerfield, which has two open top containers. The compactors are on a ten-year depreciation schedule. The centers are open six days a week, Monday through Saturday, from 7:00am to 5:30pm.

BTS Incorporated has a contract with the County to haul solid waste from the convenience centers to the Augusta Regional Landfill (**Table 2**). BFI/Allied, Waste Management, C&S Disposal, Green Earth, Waste Movers, Waste Operations, Augusta County Disposal, and Shenandoah Valley Disposal are the major solid waste handlers that serve residents and businesses in the region.

The Augusta Regional Landfill has a public use area where residents can bring their solid waste for disposal. This public-use area effectively serves Stuarts Draft and Fishersville, two main population centers in the County.

Excess demand on the convenience centers by the public has been problematic and has prompted the Regional Landfill to expand their public use disposal area. As population and demand increases the County may consider additional convenience centers locations to address the issue.

## Staunton

The City of Staunton currently operates four 25-yard refuse packers five days a week. Refuse collection for restaurants located in the Central Business District is provided on Saturday. Each truck has a three-man crew assigned - one driver and two loaders. Commercial providers (such as Waste Management, BFI, etc) are equipped with automatic loading devices to pick up dumpsters.

The Staunton Public Works Department provides a city-wide, free heavy trash pickup program once a year in April. This service allows residents to dispose of items that cannot be disposed of by regular refuse pickup. Items include white goods, furniture, large quantities of brush/limbs. No hazardous waste of any kind is picked up.

City residents are billed \$16.50 per month for refuse pick-up (**Table 2**). The current rate for light commercial is \$37.47/mo., heavy commercial is \$79.27/mo., outside the business district and inside the business district is \$100.72/mo. (outside the business there are 4 pick-ups per week and inside the business district there are 5 pick-ups per week the additional pick-up being on Saturday).

## Waynesboro

The City of Waynesboro has three, three-person crews, which collect refuse from households and businesses each week. Three trucks collect residential waste within one of four voting wards. Ward B is collected on Tuesdays, Ward A is collected on Wednesdays, Ward C is collected on Thursdays and Ward D is collected on Mondays. Collection within the wards is conducted during the first four days of the week, with the three trucks and crews collecting from the fourth ward on Fridays. Crews also collect from businesses that require more than once a week service. Crews also place and remove roll-out refuse containers from accounts and transfers containers.

The City provides collection to residents who subscribe to the service. The City charges a flat fee of \$14.50 per month for collection service (**Table 2**). During the solid waste planning process in 1991, the City considered a variable rate or “pay-as-you-throw” fee system; however, the City decided not to implement it.

The City’s collection equipment consists of a 1983 International cage truck, two 2012 International packers, a 2015 International packer, a 2015 Freightliner packer, a 2015 Freightliner Knuckleboom, a 1995 International Knuckleboom, and a 2016 Chevrolet liftgate. The City uses other equipment when necessary for landfill maintenance or disposal/transport of items, such as a knuckle-boom truck to load and transport white goods to the Augusta Regional Landfill.

The City provides daily collection of 90-gallon cans for businesses. Waste Movers and Waste Management, Inc. are two of the major private waste haulers that serve the City.

Table 2  
Collection Services

Locality	Vendor	Price (per month)	Pickup Schedule	Service to Businesses	Bulk Collection Offered?
<b>Augusta</b>	BTS Inc.	Cost included in taxes	Every Tuesday & Friday	Individual Haulers	Greenville: 1 <sup>st</sup> & 3 <sup>rd</sup> Monday of each month Augusta Springs: 1 <sup>st</sup> Weekend
<b>Staunton</b>	City	\$16.50	Every Monday, Tuesday, Thursday, Friday	City Provided or Commercial Haulers	Yes, April each year
<b>Waynesboro</b>	City	\$14.50	Every Monday, Tuesday, Wednesday, Thursday	Town services some businesses, others use individual haulers	Yes, call in request service

Source: Localities, personal communication, 2017

## LANDFILL DISPOSAL

In 1999, Augusta County and the Cities of Staunton and Waynesboro entered an agreement to share the Jolivue Landfill, which is now officially the Augusta Regional Landfill. As part of the agreement, the three localities contribute to the operations and maintenance of the facility at negotiated percentages. The Augusta Regional Landfill serves as the only permitted landfill in the Augusta-Staunton-Waynesboro area.

The Regional Landfill, located in the south central portion of Augusta County, has accepted municipal solid waste since 1971. Operated by the Augusta County Service Authority, the landfill encompasses a total of 865 acres, with 165 acres comprising a pre-Subtitle D landfill which is now in post-closure care and an 85-acre Subtitle D permitted landfill. The four Subtitle D cells permitted for both “A” and “B” applications make up 46 acres and have capacity until approximately 2022. The remaining three Subtitle D cells, with their A applications completed, will afford capacity to approximately 2050. According to the Calendar Year 2016 Solid Waste Information and Assessment report, the remaining life is 36.3 years and the remaining capacity is 9,078,763 cubic yards. The landfill has had scales since 1971. The inside residential scale was replaced in 2015.

Within the landfill facility is a public use site, which residents may use to deposit their privately transported waste. The public use site has four compactor boxes and ten open-

top containers. The landfill charges commercial users with a tipping fee of \$45 per ton for commercial and industrial waste, \$20 per ton for wood waste and \$10 for mulch. See **Tables 3 and 4** for a break-down on tire and brush charges.

The City of Waynesboro’s 68-acre landfill and baling facility, which opened in 1982, stopped accepting waste in 2004 and received its closure certificate in 2005. If the budget allows or if grant money can be obtained the City has plans to develop the former landfill into a passive activity park. City residents may use the recycling drop-off area located at the landfill. The City does not charge a fee for the use of the facility.

See Appendix G for a list of active, inactive and closed Solid Waste Disposal Sites.

Table 3  
Landfill charges for tires

<b>Tire Type</b>	<b>Charge Amount</b>
County and City small, off rim	\$2.00
County and City Tractor Trailer/Agriculture, off rim	\$8.00
County and City Tire on rim	\$4.00
Off Road/Heavy Equipment Tires	\$168.00/ton

Table 4  
Landfill charges for brush

<b>Resident Type</b>	<b>Charge Per Ton</b>
County resident	N/A
County business	\$20.00
City resident	N/A
City business	\$20.00
Stumps - County and City	\$45 per ton

## **LITTER CONTROL AND DUMPING**

For one week every April, Augusta County sponsors a major clean-up initiative. During this week, which spans two Saturdays, the County provides citizens with incentives for tidying their property. “Amnesty on Tires” allow citizens to take up to 6 tires per household to the landfill free of charge. The landfill collects an average of 10,000 tires during the clean-up week. Also during this time, junk cars are admitted to the landfill free of charge and service organizations (such as the Ruritans) help identify and clean up illegal dumping grounds. Staunton offers a similar clean-up initiative during the spring of each year during which the Streets Division picks up heavy trash (washers, stoves, etc.) and

heavy brush. Waynesboro utilizes its Knuckle-Boom truck to pick up heavy household trash on a quarterly basis, thereby minimizing the potential for illegal dumping.

Once a year, residents of the two cities and county can bring household generated hazardous materials to the Government Center in Verona. During this event, residents can dispose of household hazardous waste free of charge. Materials collected include: oil base paint, solvents, petroleum-based products, pesticides, herbicides, batteries, electronics, etc.

In both Waynesboro and Augusta County, school, church, and civic organizations participate in the Adopt-A-Spot program. The groups are given a one-mile stretch of roadway that they are responsible for maintaining at least four times a year. Additional litter control in Waynesboro is provided by the City's Inspections office. Staff from this office serves notice to residents who have accumulated "junk" on their property, such as cars, barrels, or trash. If the property is not cleaned up, the property owner is fined or the City has a contractor remove the items at cost to the resident.

Additionally, the City of Staunton has placed extra trashcans and smoking stands around town, as well as dumpsters for recyclable materials at Gypsy Hill Park.

## **RECYCLING / REUSE**

### **Augusta County**

The public use area at the Augusta Regional Landfill has several recycling receptacles. Materials accepted include mixed paper, telephone books, newspaper, corrugated cardboard, glass, plastics, scrap metal, used oil, lead acid batteries, antifreeze, tires, white goods, junked vehicles, and yard waste. The Landfill has a contract with a brush grinder, who grinds the brush into mulch for landfill soil amendment. There is also a Goodwill drop off center for reusable items.

Nine of the ten convenient centers have recycling containers (two 40-cubic yard boxes). One box is divided between corrugated/paperboard and mixed paper/newspaper. The other box is divided between aluminum/bimetal cans and glass. Participation is voluntary. A contract hauler transports the recyclables to Sonoco Recycling in Fishersville, where the company further processes the material for shipment to various markets. **Table 5** shows the general market for recyclables including average prices.

Recycling markets have continued to be weak, with oversupply and lack of nearby markets. Glass remains a challenge because of transportation cost and limited demand. Costs of recycling are offset by landfill savings, which translate to \$45 per ton, or the space not used up by recyclable material. The County has a seven-member Board of Supervisors appointed Recycling Committee, which meets on a regular basis. The committee monitors the recycling programs, discusses problems, and makes

recommendations for improvements. The Committee also provides recycling education and offers small grants to area schools to promote recycling.

Table 5 Recyclables, Prices, and End Markets			
Recyclables	Price	Recycling Company/Location	End Market
Mixed Paper	\$0	Sonoco	Unknown
Newspaper	\$0	Sonoco	Unknown
Metal	\$360/ton	Sonoco	Unknown
Cardboard (OCC)	\$51/ton	Sonoco	Unknown
Glass	-\$32.50/ton	Sonoco	Unknown
Plastics	\$0	Sonoco	Unknown
*Prices paid or received by Augusta County on Average, 2017. Source: Augusta County			

## Waynesboro

Recycling in Waynesboro consists of one voluntary drop-off location at the corner of Winchester Avenue and Sixth Street. The Recycle Center is open Monday through Friday from 7:00 a.m. until 3:30 p.m., and Saturday's from 8 a.m. until 2 p.m. City utility workers staff the Center and assist residents in unloading their vehicles and depositing materials into the appropriate containers. Materials accepted at the Center include aluminum, tin and scrap metal, glass (clear, brown, and green), plastic (#1 and #2 only), newspaper, cardboard, oil, antifreeze, fluorescent and HID bulbs, egg cartons (both types), and mixed paper.

Sonoco Recycling takes all of the City's recyclable items. Markets for plastic and glass are poor and the City is currently paying to have both removed. The newspaper market fluctuates considerably; currently, the City receives some money for newsprint. The City receives minimal money for aluminum and at times makes a little money for metal.

Nearby markets for recyclables are scarce; furthermore, Waynesboro cannot generate the large quantities of material needed to make money or break even. **Table 6** lists the prices and end markets for recyclables collected in Waynesboro. The recycling program obtains funding from the City and grant money from the Litter Council when available. The major challenge remains in finding better markets for the materials.

During 2004, the Waynesboro Recycling Center underwent a major renovation. The City added space and relocated bins to allow for the addition of refuse to accommodate

residents with the closure of the City’s landfill. Moreover, the City is considering adding another recycling drop-off center in the west end and collecting other recyclable materials.

Table 6 Recyclables, Prices, and End Markets City of Waynesboro			
Recyclables	Price	Recycling Company/Location	End Market
Mixed Paper	\$0	Sonoco	Unknown
Newspaper	35% of market price	Sonoco	Unknown
Aluminum	\$50 per ton	Sonoco	Unknown
Cardboard (OCC)	35% of market price	Sonoco	Unknown
Glass	\$30 tipping fee + \$200 haul fee	Sonoco	Unknown
Plastics	\$0	Sonoco	Unknown
*Prices paid or received by the City of Waynesboro in July, 2016. Source: City of Waynesboro/Sonoco			

## Staunton

Staunton’s city code *requires* residents and businesses to separate recyclable material from other waste products. In order to facilitate compliance with this code, the city collects recyclables curbside, using the same schedule residents follow for garbage collection (and on Thursdays in the downtown area). The Refuse Department provides recycling bins free of charge. Residents and businesses may recycle newspaper, plastic (#1 and #2 only), glass (clear, brown, and green), steel cans, and aluminum. In addition to curbside pick-up, residents may take dry newspaper, aluminum, and glass to the drop-off site at Gypsy Hill Park. This site is open 24 hours a day.

The City of Staunton currently runs two curb-side loaders four days a week, with one back-up truck. Each truck has a two-man crew assigned, one driver and one loader with the driver assisting the loader when needed. The recycling trucks vary in condition and age (between 2 and 15 years), with the oldest trucks scheduled for replacement within 5 years. Although the expected life of the curb-side loaders are 10-15 years, recent budget cuts have forced the City to keep repairing the older trucks to continue providing recycling collection service to the citizens of Staunton.

All local area private collection service providers including Waste Management, BFI, and Waste Movers offer dumpsters designated for recyclables. There are only two local area recycling centers in the Staunton area: Sonoco Recycling and Rose Time.

**Table 7** displays the prices obtained from Sonoco.

Table 7 Recyclables, Prices, and End Markets City of Staunton			
Recyclables	Price	Recycling Company/Location	End Market
Cardboard	\$25/ton	Sonoco	Unknown
Aluminum	\$360/ton	Sonoco	Unknown
Glass	-\$32.50/ton	Sonoco	Unknown
Steel cans	\$0	Sonoco	Unknown
Mixed Paper	\$0	Sonoco	Unknown
Plastics	\$0	Sonoco	Unknown
*Prices paid or received by the City of Staunton in June, 2017. *Source: City of Staunton			

Improving the City of Staunton’s recycling program would require: (1) increased participation from residents and businesses and (2) increased public education, especially as it pertains to source separation versus commingling of recyclables. Other improvements might include marketing compost material and developing a regional recycling center.

The Augusta-Staunton-Waynesboro Region Solid Waste Management Plan 2017 Recycling Rate Report was completed and reported a 33% recycling rate (See Appendix C).

## **PUBLIC PARTICIPATION AND EDUCATION**

The Greater Augusta Solid Waste Management Plan was originally developed and adopted in 2004. Evidence of public participation via public meetings and citizen advisory committees during the development process is provided in Appendices D-E. Continual public participation is essential to meeting the required minimum recycling rate and planning goals.

### Augusta County

In Augusta County, the Recycling Committee uses the public school system as a primary means of educating residents about the benefits of recycling. The Committee has put together large “teaching aid” boxes for teachers and staff to use in discussing recycling. The boxes contain samples of recycled products, books, and videos and are available at each elementary school library, both Augusta County libraries, and both the Staunton and

Waynesboro library. Augusta County and the Landfill present a watershed model learning experience for 3<sup>rd</sup> graders. Education efforts among schools generally target 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> graders; not only are children in this age group usually responsive themselves, they are also very good at passing knowledge onto their parents and siblings.

Many local teachers take their classes on fieldtrips to the County recycling center/landfill and invite Augusta County's Solid Waste Facility Manager to make classroom presentations. Committee members also make presentations to groups such as the Stuarts Draft and Riverheads environmental groups, Boy Scouts, VDOT, and the Virginia School for the Deaf and Blind (VSDB) and other civic clubs. The County also maintains a website, a display case at the Government Center, and a message board at the convenience centers.

### Waynesboro

In Waynesboro, Public Works staff visits approximately 500 students each school year. They share "Trash-to-Treasure" art projects with 1st graders and engage 4<sup>th</sup> graders in environmental education on such topics as Stormwater and how litter can affect it. In addition, City staff makes regular presentations to scout troops, the Ecology Club, and local churches, as well as special presentations at annual community functions like Public Works Day, Riverfest, and Waynesboro's Fly Fishing Festival.

### Staunton

Public education efforts in Staunton are generally carried out by posting information on the City's comprehensive municipal website. Citizens have access to information on collection schedules, billing rates, recycling, the landfill, and proper disposal of hazardous waste and special items (such as brush, leaves, white goods, etc.).

Both the cities of Waynesboro and Staunton utilize local government access channels on television to inform taxpayers of special pickups and events.

## **PUBLIC/PRIVATE PARTNERSHIPS**

Several public/private partnerships exist within the area, including the following:

- Augusta County utilizes private haulers for waste/recycling transporting.
- The Augusta Regional Landfill sends all disposed tires to DEQ-approved reuse facilities where they are ground up and reused for boiler fuel.
- Augusta County partners with Goodwill for collection of electronics and reusable goods.
- The Blue Ridge Area Food Bank obtains and reuses egg cartons from Waynesboro's Recycling Center.

## **CHAPTER 4 SUMMARY OF INTEGRATED WASTE MANAGEMENT HIERARCHY**

---

An integrated waste management plan includes a comprehensive list of methods for dealing with solid waste. The system aims to conserve resources while disposing of unrecoverable wastes in a safe and efficient manner. Below is a summary of the Greater Augusta Region's hierarchy of solid waste management.

### **SOURCE REDUCTION**

- Augusta County source reduction activities are included in public education efforts, which discuss ways to reduce waste at its source.
- Regionally source reduction practices include classified tools such as Craigslist, newspapers, and Facebook "for sale" groups keep gently used items out of the waste stream.

### **REUSE**

- Augusta Regional Landfill sends all disposed tires to a DEQ-approved reuse facility where they are ground and reused for a variety of applications.
- The Blue Ridge Area Food Bank obtains and reuses egg cartons from Waynesboro's Recycling Center.
- Established a Goodwill drop-off center at the Regional Landfill for reusable items.

### **RECYCLING**

- Augusta County provides recycling containers at its regional landfill public use area; nine of the ten convenience centers around the County have recycling containers.
- ACSA has a contract with a brush grinder, who grinds the brush into mulch for landfill soil amendment.
- Waynesboro has a voluntary recycling drop-off center, located at the closed City landfill.
- Staunton has a curbside recycling program for residents; in addition, a drop-off site is located at Gypsy Hill Park.
- Private collection service providers offer recycling dumpsters to businesses.
- Sonoco Recycling, Gerdau, and Green Earth receive recycled material and ship them to end markets.

## **WASTE-TO-ENERGY/INCINERATION**

- The Regional Landfill is exploring the development of a landfill gas to energy project.
- Consider other waste to energy/incinerator proposals when submitted.

## **LANDFILL**

- The region's major landfill is the Augusta Regional Landfill, which is a Subtitle D facility having capacity until approximately 2050.
- Waynesboro's landfill is closed and the Augusta Regional Landfill will serve the needs of Waynesboro, Staunton and Augusta County.

## **CHAPTER 5**

### **SOLID WASTE MANAGEMENT OBJECTIVES**

---

#### **AUGUSTA-STAUNTON-WAYNESBORO REGIONAL OBJECTIVES**

1. Continue with phased permitting of new cells in the regional landfill facility, which will ensure landfill capacity to approximately 2050.
2. Continue to find ways to increase the life of the regional landfill.
3. Continue to explore ways to recycle materials received at the regional landfill.
4. Make needed improvements to the public use site at the landfill to better serve the public.
5. Explore composting at the landfill and the marketing of a compost product.
6. Improve cost effectiveness of recycling thru in-house Freon removal.
7. Increase public education toward reduction, reuse, and recycling.
8. Increase recycling program participation – from curbside to centers to businesses.
9. Examine the possibility of a Regional Recycling Center, where mass purchasing power could increase net profits to municipalities.

#### **AUGUSTA COUNTY OBJECTIVES**

1. Increase convenience center use and capacity to meet demand by providing more containers at some sites and providing easy access to recycling containers for the safety of users and operators.
2. Promote private-sector curbside trash pick-up at county subdivisions.
3. Continue to make recycling more cost effective through improved collection, handling, marketing, education and internal school recycling programs.

#### **CITY OF STAUNTON OBJECTIVE**

1. Increase participation in recycling.

#### **CITY OF WAYNESBORO OBJECTIVES**

1. Re-organize the recycling center to comply with MS4 standards.
2. Explore local or regional composting and mulching.
3. Explore feasibility for collection of new types of materials for recycling.

## CHAPTER 6 IMPLEMENTATION PLAN

The following describes objectives and implementation plans, which includes key steps, time frames, responsible parties, and funding sources.

### AUGUSTA-STAUNTON-WAYNESBORO REGIONAL OBJECTIVES

<b>1. Continue to find ways to increase the life of the Regional Landfill.</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Concentrate on diverting high volume material such as yard waste and CDD from entering the landfill.	Ongoing.	Landfill Operations & Landfill Committee	Funding depends on materials selected for diversion (see composting and CDD landfill).
▶ Continue to compact material as much as possible.	Ongoing.		Already funded from Landfill budget.
▶ Continue to explore ways to recycle additional material received at the landfill. For example, in 2014, landfill employees began recycling large scrap metal objects from the lift via the clamshell bucket on the track loader. This recycles over 150 tons of scrap per year.	Ongoing.		Already funded from Landfill budget.

<b>2. Continue to operate the landfill soil amendment program.</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Landfill receives Class B biosolids from owner localities and mixes with ground mulch and soil to create a topsoil for landfill use.	Ongoing.	Landfill Committee	Minimal—Landfill budget.

**3. Improve cost effectiveness of recycling.**

IMPLEMENTATION STEPS	TIME FRAME	RESPONSIBLE PARTY	FUNDING
▶ Increase and improve public education in order to collect more and better sorted material.	Ongoing.	A-S-W Recycling Offices.	\$1,000 per year—Litter Prevention Grant/local funds.
▶ Augusta County, Staunton, and Waynesboro work together to market material.	Ongoing.	Landfill Committee & A-S-W Recycling Offices.	Minimal—Local budgets.
▶ Continue with efforts on high volume/high tonnage material and higher value material.	Ongoing.	Landfill Committee & A-S-W Recycling Offices.	Minimal—Local budgets.
▶ Improve transportation of collected material.	Ongoing.	A-S-W Recycling Offices.	Minimal—Local budgets.
▶ Seek out other markets for collected material for better prices and closer markets.	Ongoing.	Landfill Committee & A-S-W Recycling Offices.	Minimal—Local budgets.
▶ Work more with private haulers, brokers, and processors.	Ongoing.	Landfill Committee & A-S-W Recycling Offices.	Minimal—Local budgets.

**4. Increase public education toward source reduction, reuse, recycling, and litter control.**

IMPLEMENTATION STEPS	TIME FRAME	RESPONSIBLE PARTY	FUNDING
▶ Evaluate current methods of public education.	Ongoing.		Minimal—Local budgets.
▶ Examine most effective ways to educate public including: internet, newspaper articles/ads, public school curricula, TV or radio media, etc.	Ongoing.	A-S-W Recycling Offices & Landfill Committee.	Minimal—Local budgets.
▶ Choose mix of public education methods and implement them.	Ongoing.		\$5,000—DEQ Litter Prevention & Recycling Grant.

**5. Increase recycling program participation—from curbside, centers, and businesses.**

IMPLEMENTATION STEPS	TIME FRAME	RESPONSIBLE PARTY	FUNDING
▶ Increase public outreach and education.	Ongoing.	A-S-W Recycling Offices.	\$500 per year—DEQ Litter Prevention & Recycling Grant.
▶ Devise and implement a strategy to get businesses to recycle material.	Ongoing.	A-S-W Recycling Offices & Landfill Committee.	\$500—DEQ Recycling Grant.

**6. Examine the possibility of a Regional Recycling Center, where mass purchasing power could increase net profits to municipalities.**

IMPLEMENTATION STEPS	TIME FRAME	RESPONSIBLE PARTY	FUNDING
▶ Discuss feasibility of establishing a regional recycling center, including location near the regional landfill or some other location, costs, and funding; compare costs and revenue to current recyclables marketing method.	Ongoing.	Landfill Committee & A-S-W Recycling Offices.	Minimal—Landfill budget.
▶ Make a decision on developing a regional recycling center based on the feasibility study done previously.	2016 and beyond.	Landfill Committee	Minimal—Landfill budget.

## **AUGUSTA COUNTY OBJECTIVES**

### **1. Increase convenience center capacity to meet demand by providing more containers at some sites and providing easy access to recycling containers for the safety of users and operators.**

<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Determine demand by both direct observation and by surveying areas in the County.	Ongoing.	Augusta County Office.	\$4,000—Augusta County Budget.
▶ Prioritize new facilities & equipment based on demand.	Ongoing.		Minimal—Augusta County Budget.
▶ Consider funding of new facilities and equipment through capital improvements program, grants, loans, and other funding mechanisms.	2016 and beyond.		Minimal—Augusta County Budget.

### **2. Promote private-sector curbside trash pick-up at county subdivisions.**

<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Determine areas in the County for possible private-sector curbside trash pick-up.	On-going.	Augusta County Office.	Minimal—Augusta County.

**3. Continue to make recycling more cost effective through improved collection, handling, and marketing.**

IMPLEMENTATION STEPS	TIME FRAME	RESPONSIBLE PARTY	FUNDING
▶ Increase and improve public education in order to collect more and better sorted material.	2016 and beyond.	Augusta County Office.	\$1,000 per year—DEQ Recycling Grant or local funds.
▶ Work with Staunton and Waynesboro to market material.	2016 and beyond.		Minimal—County budget.
▶ Continue with efforts on high volume/high tonnage material such as yard waste and higher value material such as aluminum and metal; re-evaluate more costly materials.	Ongoing.		Minimal—County budget.
▶ Improve transportation of collected material.	2016 and beyond.		Minimal—County budget.
▶ Seek out other markets for collected material for better prices and closer markets.	2016 and beyond.		Minimal—County budget.
▶ Work more with private haulers, brokers, and processors.	2016 and beyond.		Minimal—County budget.

**CITY OF STAUNTON OBJECTIVE**

<b>Increase participation in recycling.</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Increase public outreach and education.	2017 and beyond.	City of Staunton	Minimal- Existing Budget

**CITY OF WAYNESBORO OBJECTIVES**

<b>1. Collect new types of material for recycling.</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Research potential new materials in the area for recycling.	Summer 2018.	Waynesboro Recycling Office.	Minimal—City budget.
▶ Consider possibility of bulk storing recycling to receive additional options on goods.	Winter 2019.		Minimal—City budget.
<b>2. Explore local or regional composting and mulching</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Discuss the idea of a regional composting and mulching station with other localities.	2019 and beyond.	Waynesboro Recycling Office.	Minimal—City budget.
▶ Explore local composting and mulching businesses to partner with.	2019 and beyond.		Minimal—City budget.
<b>3. Re-organize the recycling center to comply with MS4 standards</b>			
<b>IMPLEMENTATION STEPS</b>	<b>TIME FRAME</b>	<b>RESPONSIBLE PARTY</b>	<b>FUNDING</b>
▶ Work with the Stormwater Department to ensure compliance. ➤ Began inspections of storm drain areas July 2017	Ongoing.	City of Waynesboro	Minimal—City budget.

Appendix A  
Resolutions for Formation of the Augusta-Staunton-Waynesboro  
Solid Waste Planning Region

**RESOLUTION**  
**DESIGNATING THE AUGUSTA-STANTON-WAYNESBORO REGION**  
**AS A SOLID WASTE MANAGEMENT PLANNING REGIONAL BOUNDARY**

**WHEREAS**, the Virginia Waste Management Board has adopted regulations, which require every city, county, and town in the Commonwealth of Virginia to develop a solid waste management plan in accordance with the provisions of the Virginia Waste Management Act and 9 VAC 20-130-10 et seq., Regulations for Solid Waste Management Planning, by July 1, 2004; and

**WHEREAS**, although the regulations in 9 VAC 20-130-10 et seq. permit the solid waste management plans to be developed on an individual jurisdictional basis, the Board of Supervisors of the County of Augusta supports the concept that these requirements can be efficiently and effectively met through participation in a regional solid waste management plan; and

**WHEREAS**, the regulations in 9 VAC 20-130-10 et seq. provide that jurisdictions may petition the Director of the Virginia Department of Environmental Quality to designate the petitioning jurisdictions as part of a region for the purposes of solid waste management planning and implementation in order to meet the requirements of the regulations; and

**WHEREAS**, Augusta County, the Cities of Staunton and Waynesboro, and the Town of Craigsville have been providing regional solid waste disposal services since 1999; and

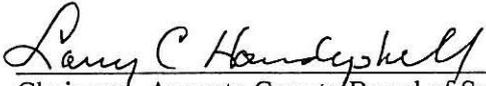

**WHEREAS**, the County of Augusta will join the Cities of Staunton and Waynesboro and the Town of Craigsville in the Augusta-Staunton-Waynesboro Region under the Augusta County Service Authority, hereinafter called the "Authority"; and

**WHEREAS**, the Authority will be empowered by its Articles of Incorporation with planning and implementing authority for solid waste management within the Augusta-Staunton-Waynesboro Region; and

**WHEREAS**, the four jurisdictions and Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region; and

**NOW, THEREFORE, BE IT RESOLVED**, that the Board of Supervisors of the County of Augusta, Virginia, does hereby petition the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for the purposes of compliance with 9 VAC 20-130-10 et seq.

Adopted: October 8, 2003

  
Chairman, Augusta County Board of Supervisors

**RESOLUTION**  
**DESIGNATING THE AUGUSTA-STAUNTON-WAYNESBORO REGION**  
**AS A SOLID WASTE MANAGEMENT PLANNING REGIONAL BOUNDARY**

**WHEREAS**, the Virginia Waste Management Board has adopted regulations, which require every city, county, and town in the Commonwealth of Virginia to develop a solid waste management plan in accordance with the provisions of the Virginia Waste Management Act and 9 VAC 20-130-10 et seq., Regulations for Solid Waste Management Planning, by July 1, 2004; and

**WHEREAS**, although the regulations in 9 VAC 20-130-10 et seq. permit the solid waste management plans to be developed on an individual jurisdictional basis, the City Council of the City of Staunton supports the concept that these requirements can be efficiently and effectively met through participation in a regional solid waste management plan; and

**WHEREAS**, the regulations in 9 VAC 20-130-10 et seq. provide that jurisdictions may petition the Director of the Virginia Department of Environmental Quality to designate the petitioning jurisdictions as part of a region for the purposes of solid waste management planning and implementation in order to meet the requirements of the regulations; and

**WHEREAS**, Augusta County, the Cities of Staunton and Waynesboro, and the Town of Craigsville have been providing regional solid waste disposal services since 1999; and

**WHEREAS**, the City of Staunton will join the County of Augusta, the City of Waynesboro, and the Town of Craigsville in the Augusta-Staunton-Waynesboro Region under the Augusta County Service Authority, hereinafter called the "Authority"; and

**WHEREAS**, the Authority will be empowered by its Articles of Incorporation with planning and implementing authority for solid waste management within the Augusta-Staunton-Waynesboro Region; and

**WHEREAS**, the four jurisdictions and Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region; and

**NOW, THEREFORE, BE IT RESOLVED**, that the City Council of the City of Staunton, Virginia, does hereby petition the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for the purposes of compliance with 9 VAC 20-130-10 et seq.

Adopted this 9<sup>th</sup> day of October, 2003.

ATTEST: *Dennis L. Sutton*  
Clerk of Council

*John A. O'Neal*  
Mayor

EXTRACT AS TAKEN FROM THE FIRST DRAFT OF THE MINUTES OF A MEETING OF THE WAYNESBORO CITY COUNCIL AS HELD ON MONDAY, NOVEMBER 10, 2003:

\*\*\*\*\*

**RESOLUTION DESIGNATING AUGUSTA-STAUNTON-WAYNESBORO REGION AS SOLID WASTE MANAGEMENT PLANNING REGIONAL BOUNDARY:**

Mayor Ricketts stated that this was the date and time set to consider adopting a resolution designating the Augusta-Staunton-Waynesboro Region as a solid waste management planning regional boundary. He then called on the City Manager to present the matter.

Mr. Walker summarized the following that had been submitted to Council prior to this meeting:

*The Department of Environmental Quality requires all local governments to submit a solid waste management plan for review and approval. This attached resolution is needed to request that the DEQ designate Augusta, Staunton and Waynesboro as a region for purposes of the Solid Waste Management Plan requirement. If this designation is approved, the three jurisdictions will be able to submit one plan on behalf of all jurisdictions. If not, Waynesboro will need to develop and submit a Solid Waste Management Plan for the City of Waynesboro only.*

*It is recommended that the City Council approve the resolution petitioning DEQ to designate the Augusta-Staunton-Waynesboro region as the regional solid waste management planning boundary for compliance purposes.*

Mr. Walker stated that Mr. John Giles of the Central Shenandoah Regional Planning District Commission was present to answer any questions. Mayor Ricketts thanked Mr. Giles for his attendance.

Mr. Hatfield moved adoption of the following resolution:

**RESOLUTION  
DESIGNATING THE AUGUSTA-STAUNTON-WAYNESBORO REGION  
AS A SOLID WASTE MANAGEMENT PLANNING REGIONAL BOUNDARY**

*WHEREAS, the Virginia Waste Management Board has adopted regulations, which require every city, county, and town in the Commonwealth of Virginia to develop a solid waste management plan in accordance with the provisions of the Virginia Waste Management Act and 9 VAC 20-130-10 et seq., Regulations for Solid Waste Management Planning, by July 1, 2004; and*

*WHEREAS, although the regulations in 9 VAC 20-130-10 et seq. permit the solid waste management plans to be developed on an individual jurisdictional basis, the City Council of the*

*City of Waynesboro supports the concept that these requirements can be efficiently and effectively met through participation in a regional solid waste management plan; and*

*WHEREAS, the regulations in 9 VAC 20-130-10 et seq. provide that jurisdictions may petition the Director of the Virginia Department of Environmental Quality to designate the petitioning jurisdictions as part of a region for the purposes of solid waste management planning and implementation in order to meet the requirements of the regulations; and*

*WHEREAS, Augusta County, the Cities of Staunton and Waynesboro, and the Town of Craigsville have been providing regional solid waste disposal services since 1999; and*

*WHEREAS, the City of Waynesboro will join the County of Augusta, the City of Staunton, and the Town of Craigsville in the Augusta-Staunton-Waynesboro Region under the Augusta County Service Authority, hereinafter called the "Authority"; and*

*WHEREAS, the Authority will be empowered by its Articles of Incorporation with planning and implementing authority for solid waste management within the Augusta-Staunton-Waynesboro Region; and*

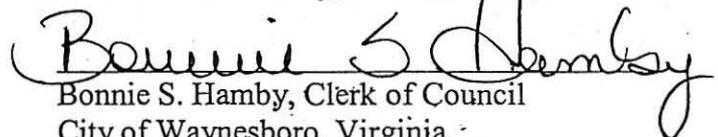

*WHEREAS, the four jurisdictions and Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region; and*

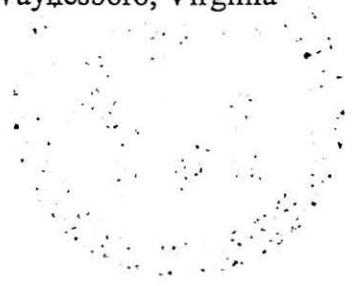

*NOW, THEREFORE, BE IT RESOLVED, that the City Council of the City of Waynesboro, Virginia, does hereby petition the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for the purposes of compliance with 9 VAC 20-130-10 et seq.*

Seconded by Mr. Reynolds, the motion carried and the resolution was adopted on the unanimous affirmative votes of Council members Dowdy, Hatfield, Higgs, Reynolds and Ricketts.

\*\*\*\*\*

I, Bonnie S. Hamby, Clerk of Council in and for the City of Waynesboro, Virginia, do hereby certify the foregoing to be a true and exact copy as taken from the first draft of the minutes of a meeting of the Waynesboro City Council as held on Monday, November 10, 2003.

  
Bonnie S. Hamby, Clerk of Council  
City of Waynesboro, Virginia

**RESOLUTION**  
**DESIGNATING THE AUGUSTA-STAUNTON-WAYNESBORO REGION**  
**AS A SOLID WASTE MANAGEMENT PLANNING REGIONAL BOUNDARY**

**WHEREAS**, the Virginia Waste Management Board has adopted regulations, which require every city, county, and town in the Commonwealth of Virginia to develop a solid waste management plan in accordance with the provisions of the Virginia Waste Management Act and 9 VAC 20-130-10 et seq., Regulations for Solid Waste Management Planning, by July 1, 2004; and

**WHEREAS**, although the regulations in 9 VAC 20-130-10 et seq. permit the solid waste management plans to be developed on an individual jurisdictional basis, the Town Council of the Town of Craigsville supports the concept that these requirements can be efficiently and effectively met through participation in a regional solid waste management plan; and

**WHEREAS**, the regulations in 9 VAC 20-130-10 et seq. provide that jurisdictions may petition the Director of the Virginia Department of Environmental Quality to designate the petitioning jurisdictions as part of a region for the purposes of solid waste management planning and implementation in order to meet the requirements of the regulations; and

**WHEREAS**, Augusta County, the Cities of Staunton and Waynesboro, and the Town of Craigsville have been providing regional solid waste disposal services since 1999; and

**WHEREAS**, the Town of Craigsville will join the County of Augusta, the City of Staunton, and the City of Waynesboro in the Augusta-Staunton-Waynesboro Region under the Augusta County Service Authority, hereinafter called the "Authority"; and

**WHEREAS**, the Authority will be empowered by its Articles of Incorporation with planning and implementing authority for solid waste management within the Augusta-Staunton-Waynesboro Region; and

**WHEREAS**, the four jurisdictions and Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region; and

**NOW, THEREFORE, BE IT RESOLVED**, that the Town Council of the Town of Craigsville, Virginia, does hereby petition the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for the purposes of compliance with 9 VAC 20-130-10 et seq.

Ms. Elizabeth Vick  
Regional Planner  
Augusta-Staunton-Waynesboro  
112 MacTanly Place  
Staunton, VA 24401

**RE: CY 2017 Recycling Rate Report for Augusta-Staunton-Waynesboro**

Dear Ms. Vick:

The Department of Environmental Quality (DEQ) has completed its review of Augusta-Staunton-Waynesboro's 2017 Recycling Rate Report submitted pursuant to 9VAC20-130-165 of the Solid Waste Planning and Recycling Regulations.

The above Solid Waste Planning Unit was required to meet or exceed a 25% mandated recycling rate based upon the requirements established in 9VAC20-130-125.A of the planning regulations. DEQ accepts your data as submitted, and your regional calculated recycling rate for CY 2017 will be reported as 33%.

If you have any questions, please contact me at [prina.chudasama@deq.virginia.gov](mailto:prina.chudasama@deq.virginia.gov) or (804) 698-4159.

Sincerely,

*Prina Chudasama*

Record of Public Meeting with the Augusta County  
Recycling Committee

**Appendix D**

**Record of Public Meeting  
with the  
Augusta County Recycling Committee**

On August 20 the Augusta County Recycling Committee first met to discuss the Augusta-Staunton-Waynesboro Solid Waste Management Plan. The committee stated that more public education and awareness was essential if recycling and source reduction were to be increased or sustained.

The Committee met again on May 4 to discuss the final proposed objectives. The meeting was open to citizen representatives from Staunton and Waynesboro.

Committee members asked about composting. Jerry Martin, Landfill director, said that the Landfill Committee would have the main role in developing a composting program. The Committee particularly took interest in the possibility of a regional recycling center, Regional Objective #9. A member said one county in North Carolina was interested in newspaper recycling. John McGehee wanted to involve cities more. However, the main idea of Objective #9 was to examine the idea of a regional recycling center more thoroughly.

The Committee commented on Waynesboro's recycling efforts now that the landfill has closed.

Sandy Greene asked if the Solid Waste Plan objectives were in line with all three localities' comprehensive plans.

**Public Notice - Environmental Permit and Variance**

**PURPOSE OF NOTICE:** To seek public comment and announce a public hearing on a Draft Permit Amendment and Variance request from the Department of Environmental Quality regarding a landfill in Augusta County, Virginia.

**PUBLIC COMMENT PERIOD:** June 10, 2008 to July 25, 2008

**PUBLIC HEARING:** Augusta County Government Center, Smith's Transfer Room West, 18 Government Center Lane in Verona, Virginia, on July 10, 2008 starting at 7:00 PM

**PERMIT NAME AND NUMBER:** Augusta Regional Landfill, Permit #585

**PERMIT APPLICANT:** Augusta County Service Authority (ACSA)

**FACILITY NAME AND LOCATION:** Augusta Regional Landfill, located on State Route 648, approximately one and one-half miles south of the City of Staunton in Augusta County, Virginia

**PROJECT DESCRIPTION:** ACSA has applied for an amendment to a permit that allows a lateral expansion of approximately 43 acres of a sanitary landfill, using an alternate liner system. The total landfill acreage will become approximately 78 acres. The permit amendment includes design and construction documentation for the lateral expansion area as well as the Operations Manual, Gas Monitoring Plan, Evaluation of the Leachate Collection and Pumping System, Groundwater Monitoring Plan, and Closure/Post-Closure Plan for the Landfill Facility.

**VARIANCE PETITION:** In response to a variance petition submitted by Augusta County Service Authority, and pursuant to the requirements of 9 VAC 20-80-790.B of the Virginia Administrative Code, the Director of the Department of Environmental Quality has made a decision to tentatively approve a variance from 9 VAC 20-80-250. B.9 of the Virginia Solid Waste Management Regulations (VSWMR). The variance pertains to the allowance of an exception to the requirements of the composite liner system and the use of an alternate liner system, which will consist of several layers of synthetic material that has been demonstrated to meet the requirements of VSWMR.

**HOW TO COMMENT:** DEQ accepts comments by e-mail, fax or postal mail. All comments must include the name, address and telephone number of the person commenting and be received by DEQ within the comment period. DEQ also accepts written and oral comments at public hearings. The public may review the Draft Permit Amendment and Variance Petition at the DEQ Valley Regional Office - DEQ, 4411 Early Road, Harrisonburg, Virginia, 22801. Copies of the permit documents are also available at the Augusta County Library at 1759 Jefferson Highway, Fishersville, Virginia, 22939.

**CONTACT FOR PUBLIC COMMENTS, DOCUMENT REQUESTS AND ADDITIONAL INFORMATION:**  
Rebecca Dietrich; DEQ-West Central Region Office, 3019 Peters Creek Road, Roanoke, VA, 24019; Phone: 540-562-6790; E-mail: rddietrich@deq.virginia.gov; Fax: 540-562-6725. 71113

**CONSULTANT INSPECTION SERVICES**

The Virginia Department of Transportation is seeking Expressions of Interest (EOI) from consulting engineering firms who wish to be considered to provide professional engineering services for:

**A Bridge Repair and Coatings Inspection** contract for the Districts of Staunton and Salem. This contract will provide construction engineering inspection services under a Fixed Billable Rate Contract. This contract will be for a 1 year contract period with optional 2 one-year renewable terms. The proposed one-year contract will have a total maximum compensation not to exceed \$2,000,000.00.

This work is to be accomplished utilizing computerized design and drafting systems compatible with the Department's automated design and drafting systems. The Department's roadway design system is GEOPAK Civil Design Software and the drafting system is Microstation. The Consultant Engineering Services will be provided in accordance with the requirements of the Department's policies and procedures and FHWA's guidelines. This Request for Proposal does not commit the Department to award a contract, to pay any costs incurred in the preparation of a proposal for this request, or to procure or contract for services. The Department reserves the right to accept or reject any or all proposals received as a result of this request, to negotiate with any qualified firm or to modify or cancel in part or in its entirety the Request for Proposal if it is in the best interest of the Department to do so.

Project inspection will require 1 Construction Inspector Coordinator and 9 inspectors during peak construction operations consisting of 3 (three) Construction Inspector Seniors, 3 (three) Construction Inspectors and 3 (three) Coatings Technicians. Inspection (including all incidentals necessary for the prosecution of the work) will include, but not be limited to, the inspection of bridge approach work, bridge repair work such as; deck repairs, superstructure repairs, abutment and pier repairs, piling repairs, and bridge coatings.

All personnel shall be knowledgeable of the Department's Construction Program, VDOT's Road and Bridge Specifications and Standards, Computer Based Construction Management Systems, and Work Area Protection Manual. Additional engineering functions which may be required include, but are not limited to, the review of shop drawings, schedule review and analysis and notice of intent analysis.

The Department reserves the right to assign work from one district and/or region to other districts and/or regions on a temporary basis, when there is a need for the same services in the second district and/or region

In the event the Virginia Department of Transportation chooses to assign in-house personnel to this contract, the number of inspectors to be furnished by the consultant may be reduced at any time during the duration of the contract.

Expressions of interest must be received by 4:00 p.m. on June 24, 2008.

A copy of the request for proposal (RFP) may be obtained through VDOT's WEB site at www.vdot.state.va.us. If you experience difficulty in downloading the RFP please contact Mr. Calvin M. Thweatt (804) 371-0130 or fax (804) 225-2447. TTY/ VDD/Voice Calls: 1-800-307-4630 (For Hearing-Impaired Only)

The Department assures compliance with Title VI requirements of nondiscrimination in all activities pursuant to this advertisement.

Record of Public Hearings  
For the Augusta Solid Waste Management Plan

**Notice of Public Hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan**

A public hearing on the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan will take place at the Augusta County Government Center in Verona May 26, 2004, at or about 7:00 p.m.

Solid Waste Planning Regulations, Amendment 1, 9 VAC 20-130-10 et seq., effective August 1, 2001, require each region in Virginia as well as each city, county and town not part of such a region to develop comprehensive and integrated solid waste management plans by July 1, 2004 that, at a minimum:

- Identify the solid waste management needs and objectives of the region for the next 20 years while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.

- Produce an implementation and funding strategy to meet the needs and objectives identified in the plan.

- Continue to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.

- Ensure that the region maintains or exceeds the state mandated 25% recycling rate.

- Provide a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.

- Consider public and private sector partnerships in the improvement of solid waste management.

A draft of the plan will be available for review at the Augusta County Government Center. Interested citizens may provide comments at the public hearing. Any questions or comments prior to the hearing will be taken by John Giles, with the Central Shenandoah Planning District Commission at 885-5174 or John McGehee, Augusta County Assistant County Administrator, at 245-5613.

**Notice of Public Hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan**

A public hearing on the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan will take place at the Augusta County Government Center in Verona May 26, 2004, at or about \_\_\_\_\_ p.m.

REGIONAL SOLID WASTE MANAGEMENT PLAN

This being the day and time advertised to consider Regional Plan and objectives specific to Augusta County.

John C. McGehee, Assistant County Administrator, introduced John Giles from the Central Shenandoah Planning District Commission, to answer any questions the Board may have. Mr. McGehee briefly explained that the Department of Environmental Quality requires localities to update their Solid Waste Management Plan, which is due July 1<sup>st</sup>. Staunton, Waynesboro, and Augusta County put in an RFP and the Planning District was successful in obtaining the project of updating the Regional Solid Waste Management Plan. Mr. Giles advised that a public hearing was required by the Department of Environmental Quality. He noted that questions was raised at the Monday Staff Briefing, and that he was happy to answer any other questions if needed.

The Chairman declared the public hearing open.

There being no one present to speak for or against, the Chairman declared the public hearing closed.

Steven L. Rosenberg, County Attorney, reminded the Board that it was discussed at the Staff Briefing that the resolution to be adopted was being revised. That revised resolution was circulated to the Mr. Giles, and the City Attorneys for Staunton and Waynesboro. Mr. Rosenberg suggested that the Board table this item until June 9<sup>th</sup>.

REGIONAL SOLID WASTE MANAGEMENT PLAN (cont'd)

Mr. Bailey moved to table this request until the June 9, 2004, meeting, seconded by Ms. Sorrells.

Vote was as follows: Yeas: Howdyshell, Sorrells, Frye, Beyeler, Bailey, Coleman and Pyles

Nays: None

May 26, 2004, at 7:00 p.m.

Motion carried.

**Notice of Public Hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan**

A public hearing on the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan will take place at the City of Staunton City Council Chambers on May 27, 2004, shortly after 7:30 p.m.  
 Solid Waste Planning Regulations, Amendment 1, 9 VAC 20-130-10 et seq., effective August 1, 2001, require each region in Virginia as well as each city, county and town not part of such a region to develop comprehensive and integrated solid waste management plans by July 1, 2004 that, at a minimum:  
 • Identify the solid waste management needs and objectives of the region for the next 20 years while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.  
 • Produce an implementation

**Legal 0315**

and funding strategy to meet the needs and objectives identified in the plan.  
 • Continue to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.  
 • Ensure that the region maintains or exceeds the state mandated 25% recycling rate.  
 • Provide a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.  
 • Consider public and private sector partnerships in the improvement of solid waste management.  
 A draft of the plan will be available for review at the City of Staunton City Manager's Office. Interested citizens may provide comments at the public hearing. Any questions or comments prior to the hearing will be taken by Thomas Sliwoski, Director of Public Works, at 332-3892, or John Giles, with the Central Shenandoah Planning District Commission at 885-5174.

**REGULAR MEETING OF STAUNTON CITY COUNCIL**  
**Thursday, May 27, 2004**  
**7:30 p.m.**  
**Council Chambers**

**PRESENT:**           **G. John Avoli, Mayor**  
                          **Ronald R. Robinson, Vice Mayor**  
                          **Jean M. Donovan**  
                          **Lacy B. King, Jr.**  
                          **David R. Metz**

**ABSENT:**           **Richard P. Bell**  
                          **Rita S. Wilson**

**ALSO PRESENT:**   **C. Robert Stripling, City Manager**  
                          **D. C. Wray, Jr., City Attorney**  
                          **Deborah L. Sutton, Clerk of Council**

Mayor Avoli called the meeting of Staunton City Council to order at 7:30 p.m. The invocation was given by Mr. Metz, and the Pledge of Allegiance was recited in unison.

**MAYOR'S REPORT**

The Mayor announced that Flag Day is June 14<sup>th</sup> in Gypsy Hill Park. The special speaker will be Jack Marsh, a former congressman for the area.

He also announced that a special meeting of Staunton City Council will be held on Thursday, June 3, 2004 to interview perspective developers of the former Western State property. The public and members of the IDA are invited.

**ADDITIONAL ITEMS BY MEMBERS OF COUNCIL**

There were no additional items added to the agenda.

**APPROVAL OF MINUTES**

Mr. Metz moved for approval of the minutes of the work session and regular meeting of May 13, 2004 and the work session and meeting of May 17, 2004; and the minutes of the May 20, 2004 meeting. Seconded by Mr. Robinson, the motion carried unanimously.

**NOMINATIONS COMMITTEE REPORT**

Dr. Donovan moved that Mr. Gregory Cook be appointed to the Cable Television

EFFECTIVE DATE: May 27, 2004

/s/ G. John Avoli  
Mayor

ATTEST: /s/ Deborah L. Sutton  
Clerk of Council

**B. Public hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan**

The City Manager reported that effective August 1, 2001, the Virginia Solid Waste Planning Regulations require that each region in Virginia, as well as each city, county and town not part of such a region, to develop comprehensive and integrated solid waste management plans by July 1, 2004.

Mr. Stripling noted that a citizen advisory committee provided initial input for the updated plan. This committee, consisting of the Augusta Recycling Committee, first met in August 2003. Another meeting was held on May 4, 2004 with representatives from Staunton Clean City and Waynesboro.

He noted that in summary, they are required to have citizen advisory committee meetings and one public hearing prior to submission of this plan to the State.

The public hearing was opened. There being no one to speak, the public hearing was closed. Staff will review the input provided by the public and incorporate any useful information into the plan.

Dr. Donovan noted that this was an important example of regional cooperation between Staunton, Waynesboro, and Augusta County.

**C. Consideration of variance requests for the Carrsbrook Subdivision, Preliminary Plat – Phase I.**

The City Manager called upon the Director of Planning for a briefing of this matter.

This Preliminary Plat and the over all Master Plan for Carrsbrook were considered by Planning Commission at their meeting on May 20<sup>th</sup>. On the Master Plan, the Commission voted (3 – 1) to table approval of the Plan because of the number of issues which need to be resolved. These issues primarily centered around the traffic issue and the location of lots in areas with flood impact or low water pressure. They did however; agree to review the “Phase I Preliminary Plat” section of the plan, as this section of the plan does not need revision.

On Phase I of the Preliminary Plat, Planning Commission voted 3-1 to recommend the following:

Notice of Public Hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan

A public hearing on the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan will take place at the City of Waynesboro City Council Chambers on May 24, 2004, shortly after 7:00 p.m.

Solid Waste Planning Regulations, Amendment 1, 9 VAC 20-130-10 et seq., effective August 1, 2001, require each region in Virginia as well as each city, county and town not part of such a region to develop comprehensive and integrated solid waste management plans by July 1, 2004 that, at a minimum:

**111 Legal Notices**  
Identify the solid waste management needs and objectives of the region for the next 20 years while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.

oproduce an implementation and funding strategy to meet the needs and objectives identified in the plan.

oContinue to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.

oEnsure that the region maintains or exceeds the state mandated 25% recycling rate.

oProvide a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.

oConsider public and private sector partnerships in the improvement of solid waste management.

A draft of the plan will be available for review at the City of Waynesboro City Manager's Office. Interested citizens may provide comments at the public hearing. Any questions or comments prior to the hearing will be taken by John Diles, with the Central Shenandoah Planning/Walker, City Manager of Waynesboro, at 942-6600.

EXTRACT AS TAKEN FROM THE FIRST DRAFT OF THE MINUTES OF A MEETING OF THE WAYNESBORO CITY COUNCIL AS HELD ON MONDAY, MAY 24, 2004:

\*\*\*\*\*

PUBLIC HEARING/REGIONAL SOLID WASTE MANAGEMENT PLAN: Mayor Ricketts stated that this was the date and time set and advertised to hold a Public Hearing regarding the Regional Solid Waste Management Plan.

Mayor Ricketts opened the Public Hearing and called on the City Manager to present the matter. Mr. Walker stated that Mr. John Giles from the Central Shenandoah Regional Planning District Commission was present as well as Mr. Dave Randall, Waynesboro's I & I Project Manager, to answer any questions of Council or the public. He also referred to the following memo from Mr. Brian K. McReynolds, Director of Public Works:

**MEMO FROM:**

*Brian McReynolds  
Director of Public Works*

*To: Doug Walker, City Manager*

*Subject: Regional Solid Waste Management Plan*

*Date: June 21, 2004*

*The Virginia Waste Management Board requires all localities or organizations to submit their goals in regards to all solid waste aspects (i.e. source reduction, reuse, recycling and landfilling). Its purpose is to establish minimum standards and planning requirements for the protection of the public health, safety and environmental and natural resources throughout the state.*

*The Regional Solid Waste Management Plan was prepared by pooling information from Augusta County, Staunton and Waynesboro regarding solid waste management plans for the next few years. Planning goes on throughout the year in the solid waste management board – a board of persons within our region who meet on a regular basis to formulate a plan with regards to solid waste.*

Mayor Ricketts then called on those in attendance to speak. No speakers appeared. Mayor Ricketts closed the Public Hearing.

Mr. Higgs moved that Council adopt the Regional Solid Waste Management Plan as presented. Mrs. Dowdy seconded the motion.

Mr. Harry Colman, Chairman of the Waynesboro Planning Commission, 105 Tiffany Drive, Waynesboro, Virginia, asked if a quorum of the Planning Commission was required for this hearing. Mayor Ricketts stated that it was not a Joint Public Hearing so a quorum of the Planning Commission was not required. Mr. Colman asked if this refers to the sharing of the landfill between Staunton, Waynesboro and Augusta County at a tremendous savings to the City of Waynesboro. Mayor Ricketts stated that it refers to that as well as other matters not in the landfill agreement.

Mr. Greg Bruno, Planning Commission Member, 341 Ridge Circle, Waynesboro, Virginia, asked if copies of the proposed plan was available for public viewing. Mayor Ricketts assured him that the entire document is available for public viewing in the office of the City Manager.

Mr. John Giles of the Central Shenandoah Planning District Commission stated that the formal adoption of the proposed plan is not required until next month after some details have been resolved with Augusta County. He stated that the purpose of this meeting was simply to hold the Public Hearing and receive citizen input.

Mr. Higgs then withdrew his motion as did Mrs. Dowdy her second.

\*\*\*\*\*

I, Bonnie S. Hamby, Clerk of Council in and for the City of Waynesboro, Virginia, do hereby certify the foregoing to be a true and exact copy as taken from the first draft of the minutes of a meeting of the Waynesboro City Council as held on Monday, May 24, 2004.

---

Bonnie S. Hamby, Clerk of Council

### Notice of Public Hearing for the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan

A public hearing on a resolution to adopt the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan will take place at the Town of Craigsville Town Hall June 3, 2004, at or shortly after 7:00 p.m.

Solid Waste Planning Regulations, Amendment 1, 9 VAC 20-130-10 et seq., effective August 1, 2001, require each region in Virginia as well as each city, county and town not part of such a region to develop comprehensive and integrated solid waste management plans by July 1, 2004 that, at a minimum:

- Identify the solid waste management needs and objectives of the region for the next 20 years while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.

- Produce an implementation and funding strategy to meet the needs and objectives identified in the plan.

- Continue to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.

- Ensure that the region maintains or exceeds the state mandated 25% recycling rate.

- Provide a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.

- Consider public and private sector partnerships in the improvement of solid waste management.

A draft of the plan will be available for review at the Town of Craigsville Town Hall. Interested citizens may provide comments at the public hearing. Any questions or comments prior to the hearing will be taken by John Gileo, with the Central Shenandoah Planning District Commission at 885-5174 or Helen Cauley, Craigsville Town Clerk, at 997-5935.

June 3, 2004

MEMO: Mr. John Giles

Craigsville Town Council met on Thursday June 3rd 2004 at 7 PM in the Town Chambers. Council Members entered into a Public Hearing to adopt a Resolution for "Regional Solid Waste Management Plan". Resolution was read by the Clerk. It was brought to attention that the Augusta Springs dumpster sight serviced the surrounding areas which includes Craigsville. Many times folks have large items of furniture etc. but have to wait for a year before the sight will take them. Currently this is done in the spring of the year. It would be very convenient to have an extra container placed at the sight which has plenty of space, so that we could take large items anytime.

Councilman Joseph Colvin made a motion the Council adopt the Resolution, seconded by Albert L. Sprouse, and carried. (Following Council members present:

Richard L. Fox, Herbert A. Campbell, Albert L. Sprouse  
John E. Sours, and Joseph S. Colvin, Absent: W. Wayne  
Martin.

Respectfully,  
  
Helen W. Cauley, CLERK

Appendix F  
Resolutions for Adoption of the  
Solid Waste Management Plan

**RESOLUTION**  
**ADOPTING THE AUGUSTA-STANTON-WAYNESBORO**  
**REGIONAL SOLID WASTE MANAGEMENT PLAN**

**WHEREAS**, the Solid Waste Planning Regulations 9 VAC 20-130-10 *et seq.*, effective August 1, 2001, as amended, require each region in Virginia, as well as each city, county and town not part of such a region, to develop a comprehensive and integrated solid waste management plan by July 1, 2004 that, in part:

- Identifies the solid waste management needs and objectives of the region while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.
- Produces an implementation and funding strategy to meet the needs and objectives identified in the plan.
- Continues to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.
- Ensures that the region maintains or exceeds the state mandated 25% recycling rate.
- Provides a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.
- Considers public and private sector partnerships and private sector participation in solid waste management; and

**WHEREAS**, the County of Augusta, the City of Staunton, the City of Waynesboro and the Town of Craigsville, by resolutions duly adopted by their respective governing bodies, petitioned the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for compliance with the Solid Waste Planning Regulations; and

**WHEREAS**, the Director of the Virginia Department of Environmental Quality provisionally designated the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary by letter dated June 8, 2004; and

**WHEREAS**, the County of Augusta, the City of Staunton, and the City of Waynesboro (collectively, the "Localities") jointly own the beneficial interest in the Augusta County Regional Landfill (the "Landfill") and manage the Landfill pursuant to that certain Agreement dated September 21, 1999, by and between the County of Augusta, the City of Staunton and the City of Waynesboro; and

**WHEREAS**, the Landfill accepts solid waste from the Localities, the Town of Craigsville and the County of Highland; and

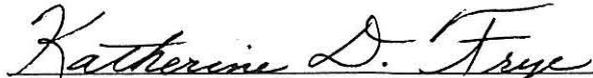

**WHEREAS**, the Augusta County Service Authority (the "Authority"), as a contract operator, operates the Landfill for the Localities; and

**WHEREAS**, the Articles of Incorporation of the Authority expressly authorize the Authority to operate and maintain the Landfill for the disposal of solid waste; and

**WHEREAS**, the Localities, the Town of Craigsville and the Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region.

**NOW, THEREFORE, BE IT RESOLVED**, that the Board of Supervisors of Augusta County, Virginia, does hereby adopt the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan, substantially in the form presented to the board, in accordance with 9 VAC 20-130-140.

Adopted: June 9, 2004

  
Chairman, Augusta County Board of Supervisors

**RESOLUTION**  
**ADOPTING THE AUGUSTA-STANTON-WAYNESBORO**  
**REGIONAL SOLID WASTE MANAGEMENT PLAN**

**WHEREAS**, the Solid Waste Planning Regulations 9 VAC 20-130-10 et seq., effective August 1, 2001, as amended, require each region in Virginia, as well as each city, county and town not part of such a region, to develop a comprehensive and integrated solid waste management plan by July 1, 2004 that, in part:

- Identifies the solid waste management needs and objectives of the region while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.
- Produces an implementation and funding strategy to meet the needs and objectives identified in the plan.
- Continues to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.
- Ensures that the region maintains or exceeds the state mandated 25% recycling rate.
- Provides a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.
- Considers public and private sector partnerships and private sector participation in solid waste management; and

**WHEREAS**, the County of Augusta, the City of Staunton, the City of Waynesboro and the Town of Craigsville, by resolutions duly adopted by their respective governing bodies, petitioned the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for compliance with the Solid Waste Planning Regulations; and

EXTRACT AS TAKEN FROM THE FIRST DRAFT OF THE MINUTES OF A MEETING OF THE WAYNESBORO CITY COUNCIL AS HELD ON MONDAY, JUNE 14, 2004:

\*\*\*\*\*

RESOLUTION ADOPTING THE AUGUSTA-STAUNTON-WAYNESBORO REGIONAL SOLID WASTE MANAGEMENT PLAN: Vice Mayor Higgs stated that this was the date and time set to consider adopting a resolution adopting the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan. He then called on the City Manager to present the matter.

Mr. Walker asked the City Attorney to address this issue. Mr. Yount gave a brief overview of the resolution and recommended its adoption.

Mr. Hatfield moved adoption of the following resolution:

**RESOLUTION  
ADOPTING THE AUGUSTA-STAUNTON-WAYNESBORO  
REGIONAL SOLID WASTE MANAGEMENT PLAN**

*WHEREAS, the Solid Waste Planning Regulations 9 VAC 20-130-10 et seq., effective August 1, 2001, as amended, require each region in Virginia, as well as each city, county and town not part of such a region, to develop a comprehensive and integrated solid waste management plan by July 1, 2004 that, in part:*

- Identifies the solid waste management needs and objectives of the region while seeking to protect the public health, public safety, environment, and natural resources of the region with the most effective and efficient use of available resources.*
- Produces an implementation and funding strategy to meet the needs and objectives identified in the plan.*
- Continues to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.*
- Ensures that the region maintains or exceeds the state mandated 25% recycling rate.*
- Provides a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.*
- Considers public and private sector partnerships and private sector participation in solid waste management; and*

*WHEREAS, the County of Augusta, the City of Staunton, the City of Waynesboro and the Town of Craigsville, by resolutions duly adopted by their respective governing bodies, petitioned*

*the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for compliance with the Solid Waste Planning Regulations; and*

*WHEREAS, the Director of the Virginia Department of Environmental Quality provisionally designated the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary by letter dated June 8, 2004; and*

*WHEREAS, the County of Augusta, the City of Staunton, and the City of Waynesboro (collectively, the "Localities") jointly own the beneficial interest in the Augusta County Regional Landfill (the "Landfill") and manage the Landfill pursuant to that certain Agreement dated September 21, 1999, by and between the County of Augusta, the City of Staunton and the City of Waynesboro; and*

*WHEREAS, the Landfill accepts solid waste from the Localities, the Town of Craigsville and the County of Highland; and*

*WHEREAS, the Augusta County Service Authority (the "Authority"), as a contract operator, operates the Landfill for the Localities; and*

*WHEREAS, the Articles of Incorporation of the Authority expressly authorize the Authority to operate and maintain the Landfill for the disposal of solid waste; and*

*WHEREAS, the Localities, the Town of Craigsville and the Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region.*

*NOW, THEREFORE, BE IT RESOLVED, that the Council of the City of Waynesboro, Virginia, does hereby adopt the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan, substantially in the form presented to the Council, in accordance with 9 VAC 20-130-140.*

Seconded by Mrs. Dowdy, the motion carried and the resolution was adopted on the unanimous affirmative votes of Council members Dowdy, Hatfield and Higgs.

- Continues to develop the region's integrated waste management strategy, which includes source reduction, reuse, recycling, waste-to-energy, and landfill disposal.
- Ensures that the region maintains or exceeds the state mandated 25% recycling rate.
- Provides a strategy to sustain or improve public education and information on source reduction, reuse, and recycling.
- Considers public and private sector partnerships and private sector participation in solid waste management; and

**WHEREAS**, the County of Augusta, the City of Staunton, the City of Waynesboro and the Town of Craigsville, by resolutions duly adopted by their respective governing bodies, petitioned the Director of the Virginia Department of Environmental Quality to designate the Augusta-Staunton-Waynesboro Region as the regional solid waste management planning boundary for compliance with the Solid Waste Planning Regulations; and

**WHEREAS**, the Director of the Virginia Department of Environmental Quality <sup>so</sup> designated the Augusta-Staunton-Waynesboro Region by letter, dated June 8, 2004; and

**WHEREAS**, the County of Augusta, the City of Staunton, and the City of Waynesboro (collectively, the "Localities") jointly own the beneficial interest in the Augusta County Regional Landfill (the "Landfill") and manage the Landfill pursuant to that certain Agreement dated September 21, 1999, by and between the County of Augusta, the City of Staunton and the City of Waynesboro; and

WHEREAS, the Landfill accepts solid waste from the Localities, the Town of Craigsville and the County of Highland; and

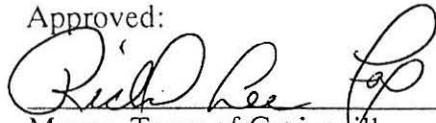

WHEREAS, the Augusta County Service Authority (the "Authority"), as a contract operator, operates the Landfill for the Localities; and

WHEREAS, the Articles of Incorporation of the Authority expressly authorize the Authority to operate and maintain the Landfill for the disposal of solid waste; and

WHEREAS, the Localities, the Town of Craigsville and the Authority are committed to a cooperative solid waste management planning process for the Augusta-Staunton-Waynesboro Region.

NOW, THEREFORE, BE IT RESOLVED, that the Town Council of the Town of Craigsville, Virginia, does hereby adopt the Augusta-Staunton-Waynesboro Regional Solid Waste Management Plan, substantially in the form presented to the Town Council, in accordance with 9 VAC 20-130-140.

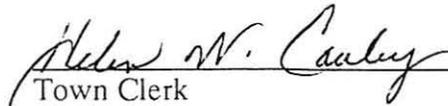

Approved:

  
\_\_\_\_\_  
Mayor, Town of Craigsville

Date:

6-3-04

Attest:

  
\_\_\_\_\_  
Town Clerk
